

FICTIONAL DEMONSTRATION - NOT FOR CONSTRUCTION USE

Hot-work permit, fire watch and close-out

Document ID	SHQ-DEMO-HWP-007	Status	Demonstration record
-------------	------------------	--------	----------------------

One time-bound record connecting the authorised task, physical checks, fire watch and final close-out.

Permit window

Task	Grinding steel brackets
Exact area	Level 4 east riser lobby
Valid	08:00-12:00 on 18 January 2027
Status	Fictional example - permit not valid for real work

Checks before issue

Combustibles	Remove or protect within the assessed area, including hidden voids
Services	Confirm relevant isolations and detection arrangements
Equipment	Select suitable firefighting provision for the real risk
Boundaries	Establish exclusion, signage and responsible people

Fire watch and close-out

Watch	Named fire watcher and site-defined check period
Interim checks	Record observations and stop for any concern
Final check	Inspect the work area and affected hidden spaces
Close	Responsible person records whether the permit may be closed

Fictional demonstration. SiteHQ does not inspect the area, select controls or authorise hot work.
