

FICTIONAL DEMONSTRATION - NOT FOR CONSTRUCTION USE

Permit to dig

Document ID	SHQ-DEMO-PTD-005	Status	Demonstration record
-------------	------------------	--------	----------------------

A pre-start authorisation record for a defined excavation area. It remains separate from the later competent excavation inspection.

Work area

Location	South service yard, grid B3-B5
Purpose	New drainage connection
Depth	Proposed maximum 1.2 m
Status	Fictional example - no authority for real excavation

Information and controls

Services	Review plans, locate and mark services using the approved procedure
Ground	Confirm available ground and contamination information
Method	Define machine/exclusion arrangements and safe-dig method
Support	Competent design or safe battering required where assessment identifies the need

Authorisation

Briefing	Operator and work party briefed on boundaries and stop conditions
Validity	Applies only to the stated area, scope and period
Change	Stop and reauthorise if conditions or information change
Close	Record completion or cancellation

Fictional demonstration. A permit to dig is not an excavation inspection and does not prove that the excavation is safe.
