

FICTIONAL DEMONSTRATION - NOT FOR CONSTRUCTION USE

Roof work, access and rescue plan

Document ID	SHQ-DEMO-RWR-002	Status	Demonstration working plan
-------------	------------------	--------	----------------------------

A task-specific plan connecting access, fragile-surface controls, weather limits and a practical rescue arrangement.

Task

Work	Rooflight replacement above Level 5 plantroom
Access	Fixed stair to roof hatch, then protected route
Fragility	Rooflights and adjacent sheets treated as fragile until confirmed otherwise
Status	Fictional example - site verification required

Controls

Avoid	Complete work from below or from a suitable platform where reasonably practicable
Prevent	Plan edge protection, covers or suitable work equipment
Minimise	Fall-arrest arrangements only where residual risk remains
Weather	Defined wind, rain, ice and visibility stop conditions

Rescue

Scenario	Suspended person or injured worker at roof level
People	Named trained rescue team for the real task
Equipment	Suitable inspected rescue equipment available at the work area
Method	Prompt recovery that does not rely solely on the fire and rescue service

Fictional demonstration. Competent people must verify the real roof, access equipment, anchors and rescue arrangements.
